

# **Garden Valley Ranch Estates Community Service District**

## **General Manager Road Report**

**Wednesday, October 4, 2023**

**Road Paving-** 60% road work complete. Minor repair on Hollow Oak outstanding and Lazy Brook needs a pre-sweep as well as chip and seal started.

**Road signs-** Signs ordered – waiting for delivery.

**Culvert Pond Area-** A very successful workday on September 16<sup>th</sup>. The team was diligent in completing culvert cleaning, weed whacking, and tree cutting/removal. Thank you to all that helped.

Additional attention is needed for the same culverts. Erosion has grown immediate to two culvert upstream entrances. Need a motion to approve the purchase of some stone and concrete to be poured adjacent to the upstream entrance of each of two pipes. This project should help reduce further erosion. This task should be completed in the next few weeks prior to the seasonal rainstorms.

**White Road Strip-** Still need a project date.
